

Self-governmental Initiative Association invites for joint programs and cooperation!

Self-governmental Initiative Association invites for cooperation and development of joint international and cross-border programs

Self-governmental Initiative Association dynamically develops its international cooperation. The international cooperation and action contribute to a great chance of development in both cultural and economical areas and sectors. Self-governmental Initiative Association has continuously increased the level of cooperation with foreign institutions and organizations from all over the world. Self-governmental Initiative Association initiates several projects aiming to develop the European integration and cross-border cooperation. In the recent years Self-governmental Initiative Association has built a reliable network of partnerships with authorities and institutions in whole Europe. Self-governmental Initiative Association is involved and open for international initiatives and actions concerning the development of cross-border cooperation. As one of the leaders of EU projects we are particularly interested in international activities and the opportunities they provide.

During our 15-year long presence on the NGO market we have undertaken joint cooperation with numerous foreign partners in a wide range of action. We heavily emphasise our training and scholarship projects which are a vital part of our Associations activities. We also concentrate on the promotion of our region and the city of Lublin, the promotion of local tradition and culture and the promotion of eco-friendly solutions. Self-governmental Initiative Association is also engaged in the improvement of the economical situation, the development of business and the exchange of experiences among foreign institutions. Since Poland's entering into the structures of the European Union Self-governmental Initiative Association actively promotes the development of democracy and integration with the European Union.

The areas of activities we are interested in:

- training and scholarships for staff, administration and private persons;
- development of innovative and useful business and economical solutions for the region.
- promotion of local culture, tradition and products and the related development of tourism and trading;
- increase of number of intercultural exchange programs;
- the improvement of democracy standards in Eastern Europe and the integration among countries and nations of Europe.
- the improvement of life status and the financial status of rural areas;
- the implementation of innovative solutions aiming to protect the environment and the ecological awareness;

-the organization of meetings, workshops, visits, conferences and events dedicated to the international cooperation, the exchange of knowledge, ideas and experiences in the EU subject areas, democracy, education, economy, culture, agriculture and ecology.

Self-governmental Initiative Association issues since 2010 an electronic newsletter for current and potential foreign partners and all institutions interested in international partnership within the by us conducted projects and programs. There are four translators and interpreters currently working in the Association, who fluently operate in 6 different languages. This allows our organization to smoothly and quickly communicate and share information and documents with foreign partners. As the local leader in running EU programs and project, we have the necessary knowledge, experience and potential to actively participate in international activities. Self-governmental Initiative Association is a reliable partner, modern and evolving – a partner who will gladly participate in actions of international scope.

With regards, wishing a successful cooperation

Krzysztof Szydłowski

Chairman of Self-governmental Initiative Association
